Web Systems

MARC YURI ESBER

Fullstack Web3 Developer

Fullstack developer with 5+ years of experience building fast, polished web applications and decentralized apps. Focused on Web3 — smart contract integrations, dApps, and AI-powered trading systems. Passionate about clean UI, performance, and shipping products that work.

PROFESSIONAL EXPERIENCE

PUMPBOT

Jan 2024 — Sept 2024

Frontend Web Developer

- Built and maintained the full frontend of a Web3 trading bot platform.
- Designed and implemented UI in Figma then developed in Next.js + Tailwind.
- Integrated wallet connections and real-time token data via Web3 APIs.
- Delivered responsive, performant interfaces optimized for crypto traders.

Solana Vibe Station

Nov 2023 — Dec 2023

Frontend Web Developer

- Designed and developed the landing page for a Solana NFT community platform.
- Focused on visual polish, animations, and Web3 wallet connect integration.
- Delivered production-ready build within a tight 2-month timeline.

Vyns

Mar 2023 — Jul 2023

Web Developer

- Developed core web application features using Next.js, TypeScript, and Tailwind CSS.
- Collaborated on component architecture and design system implementation.
- Maintained code quality and contributed to frontend performance improvements.

NOTABLE PROJECTS

AI Trading Bot Platform

Built a fullstack platform for automated crypto trading with AI signals, real-time charts, and wallet integration using Next.js + Solidity.

Web3 dApp Frontend

Designed and developed multiple dApp frontends with wallet connect, on-chain data display, and smart contract interaction via Ethers.js/Wagmi.

Web Systems

Developed full web systems for clients including dashboards, admin panels, and internal tools using Next.js, TypeScript, and REST APIs.

WRAITH Scanner

Built a Solana meme coin scanner aggregating viral signals from social media, TikTok, Reddit, and on-chain sources (Pump.fun, DexScreener).

SOFT SKILLS

Remote Collaboration · Problem Solving · Fast Learner · Attention to Detail · Communication · Decision Making · Multi-tasking · Observation
